

## KERR GLOBAL'S SOLUTION CONTAINS ROUTE AND FLEET OPTIMIZATION MODULES THAT CAN SIGNIFICANTLY REDUCE YOUR FLEET'S OPERATING COSTS.

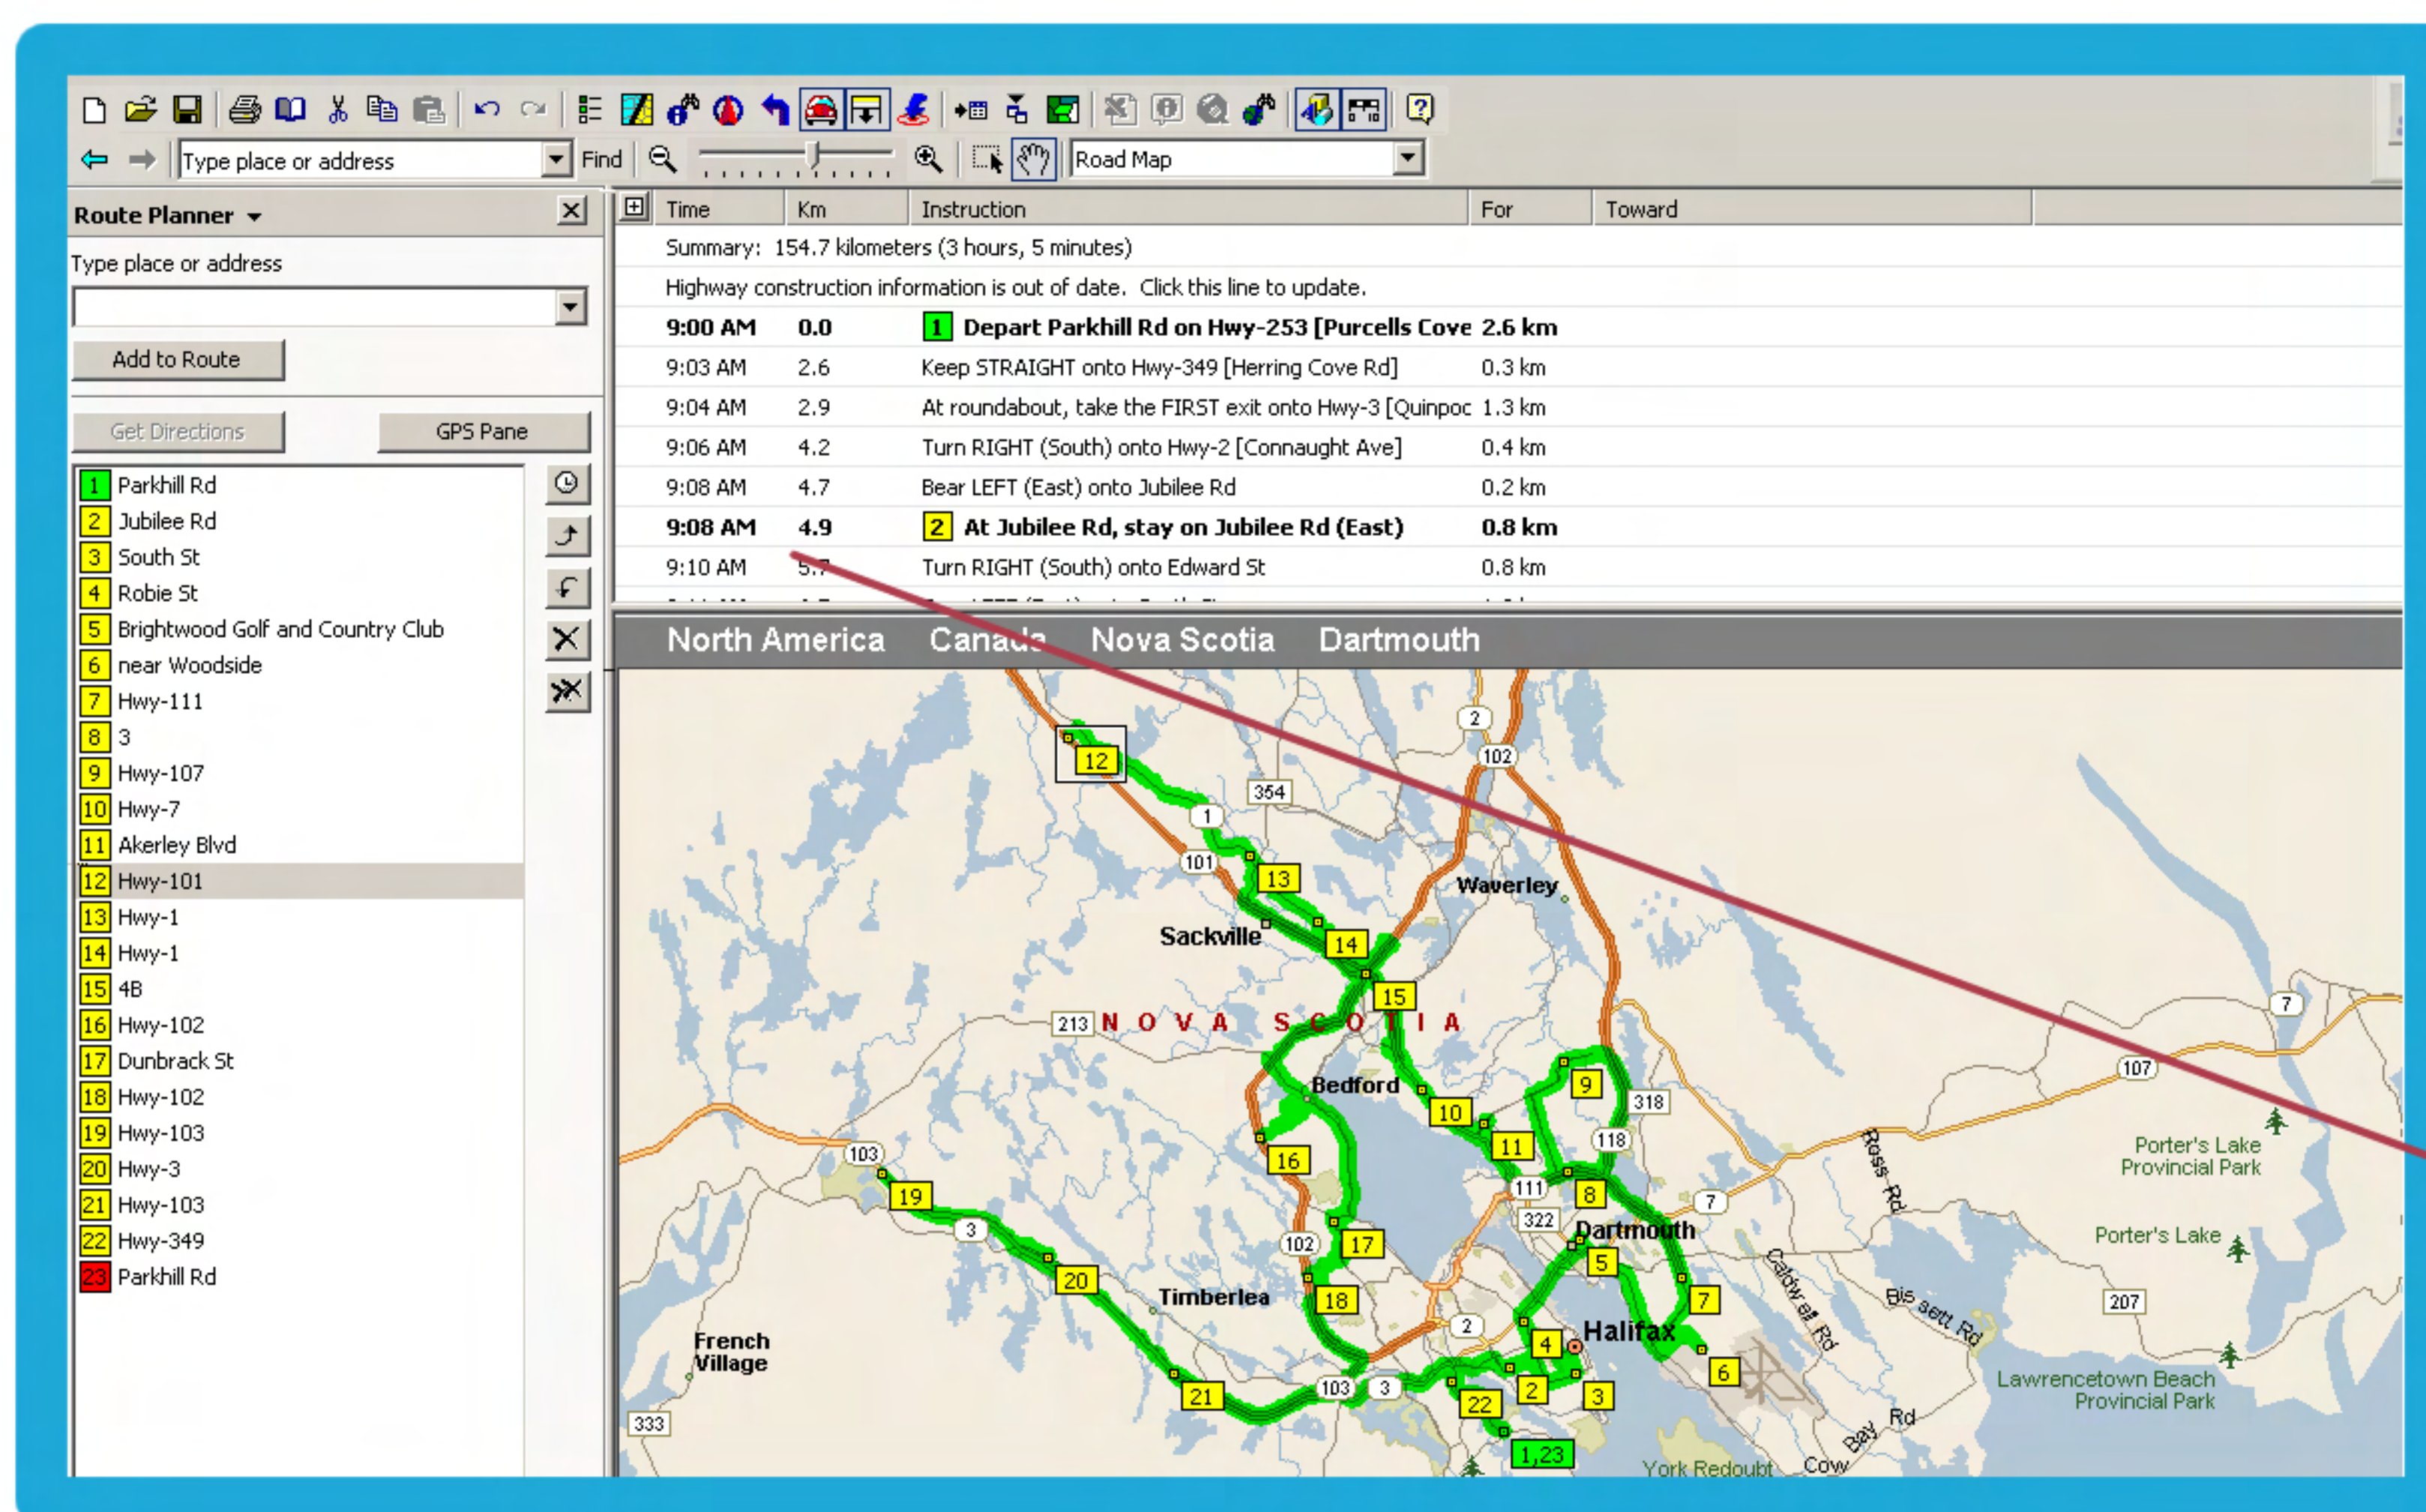

### Problem:

A logistics company operates a fleet of vehicles that must make multiple 'drop offs' and 'pick ups' at various destinations. They are concerned about their fleet's high operating costs and limited capacity.

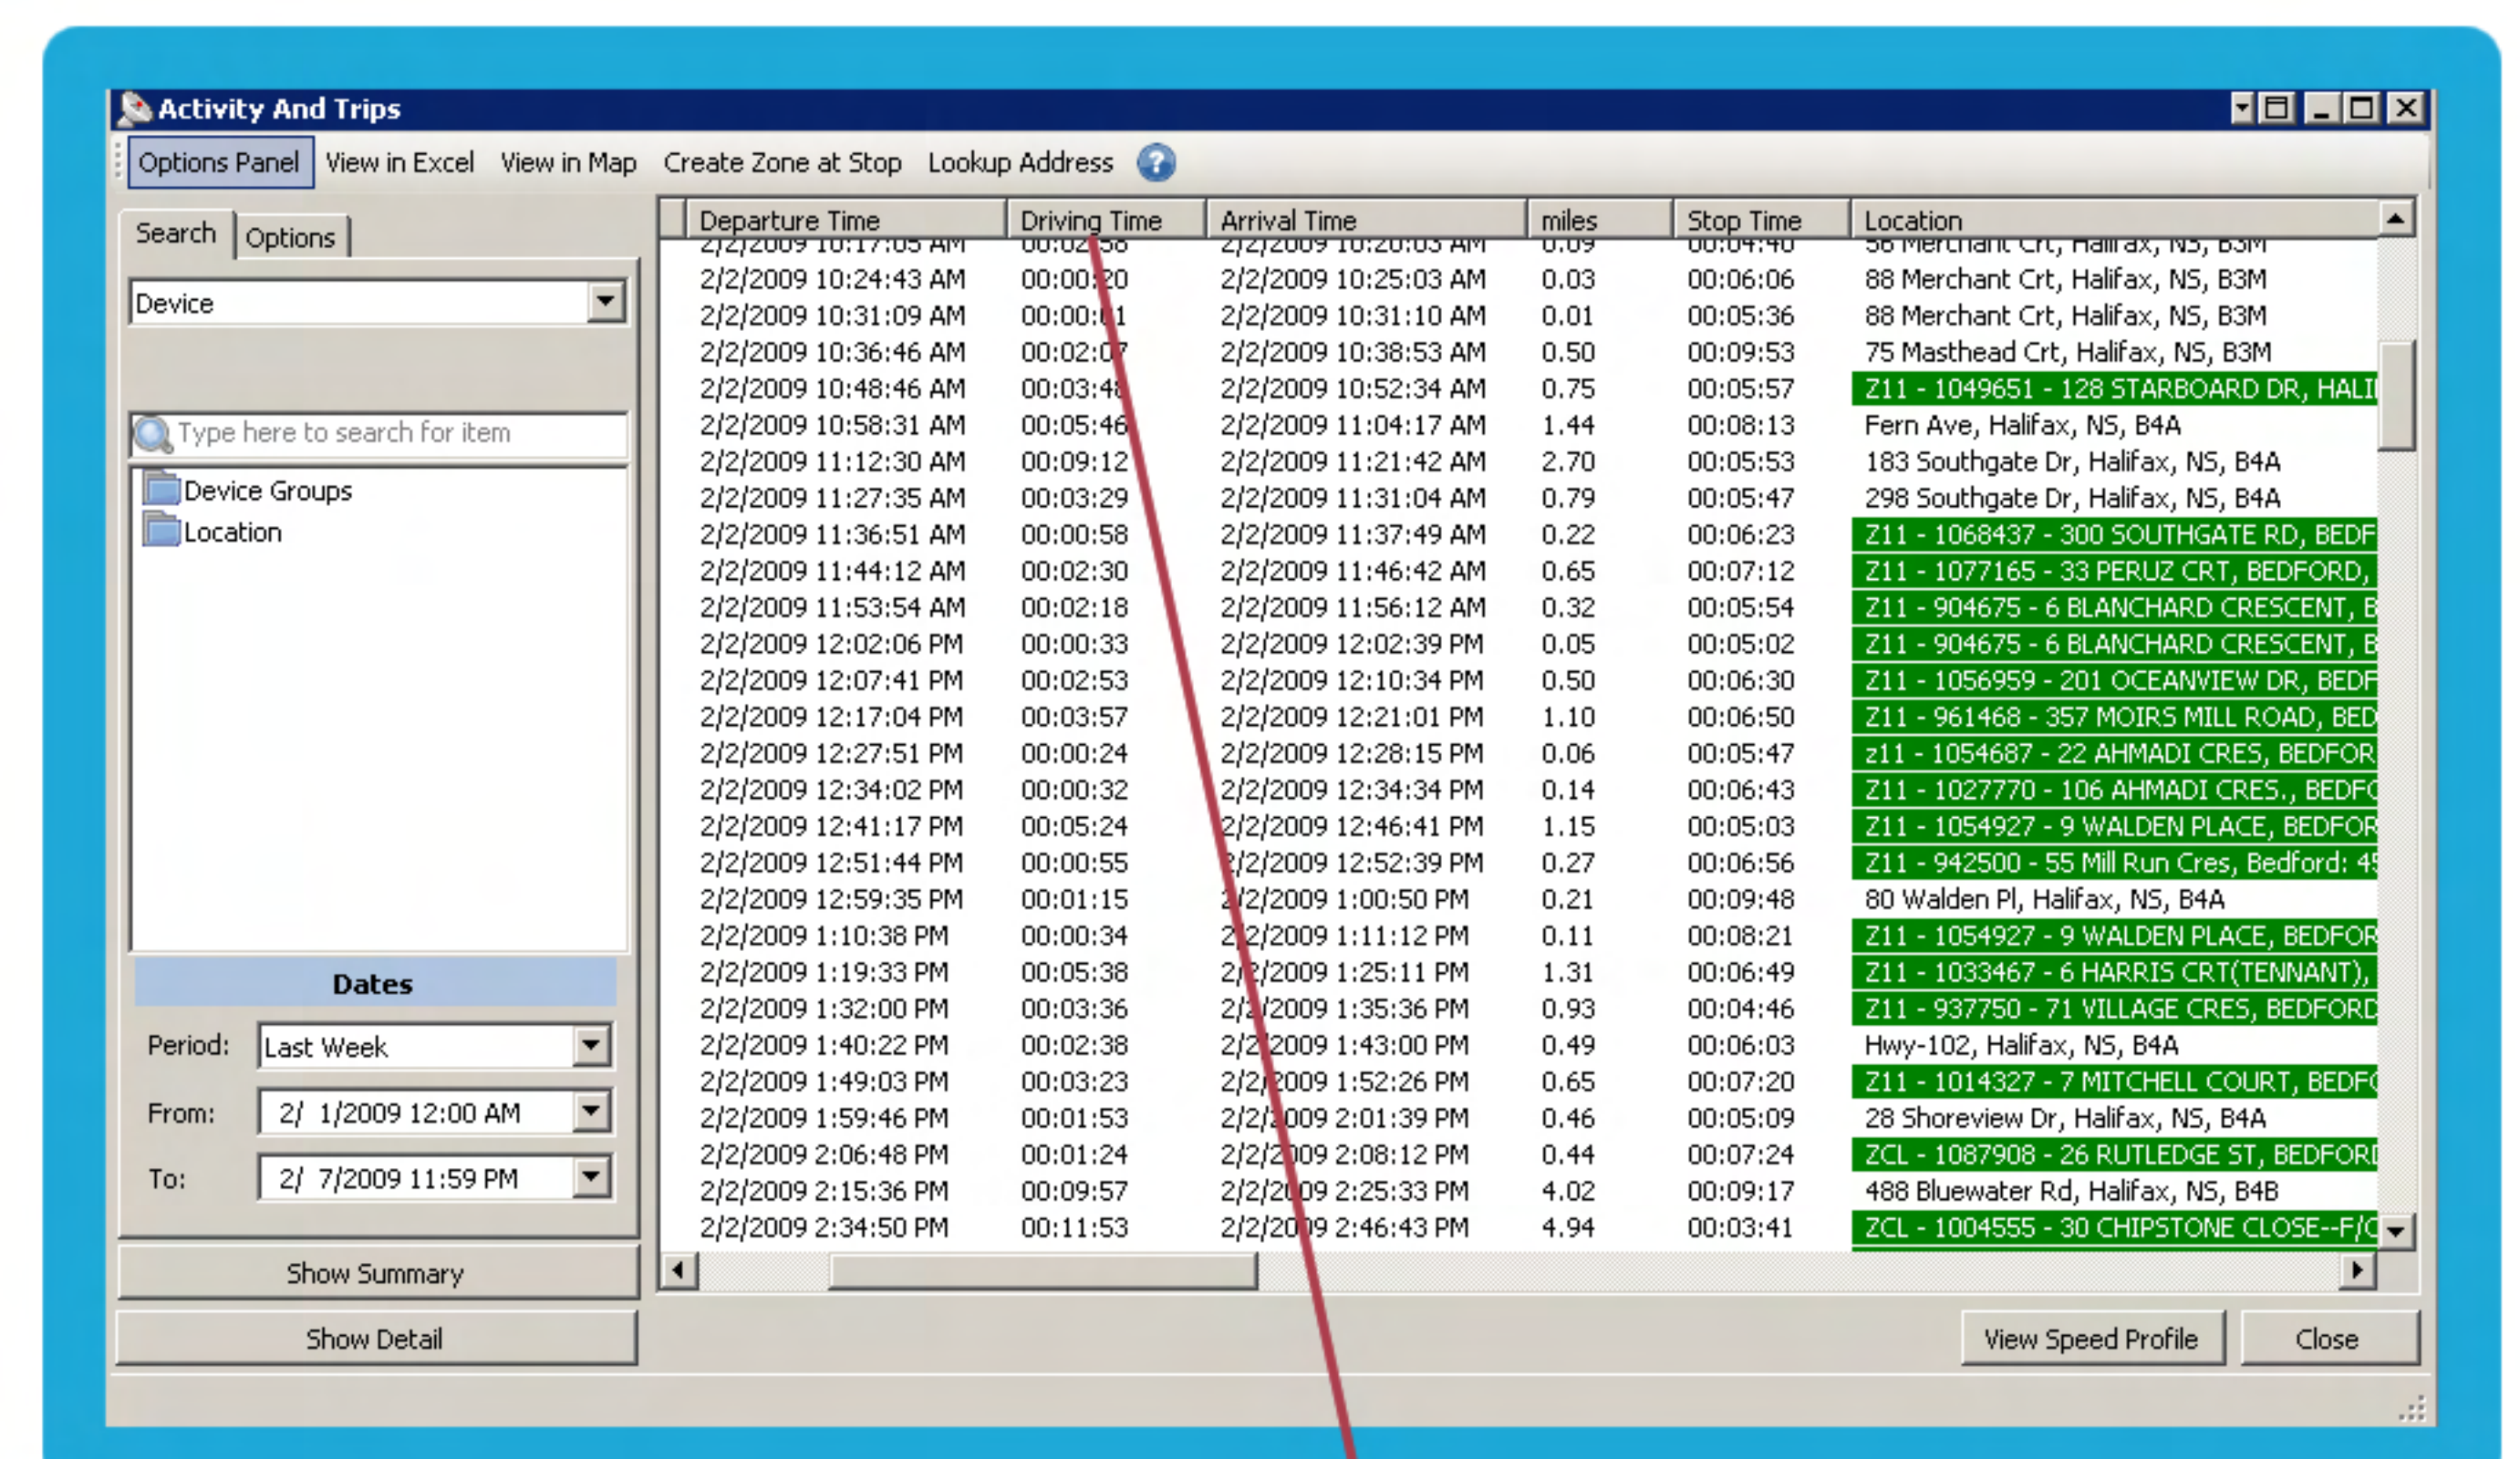

### Solution:

Kerr Global's fleet optimization tools allow businesses to produce optimal tour schedules for minimum gas and maintenance costs while increasing resource capacity. Businesses can also compare scheduled tour stops with actual tour stops via GPS reports.

#### Expected departure and arrival time

#### Actual departure and arrival time

Departure Time	Driving Time	Arrival Time	miles	Stop Time	Location
